

## Monthly Check of Safety Devices for the Year \_\_\_\_\_

**Unit Inspected:**

---

<b>Month/Day Performed</b>	<b>Results - OK or Description of Problem Found</b>	<b>Individual Performing Safety Check</b>	<b>Problem Resolution (if applicable)</b>
January			
February			
March			
April			
May			
June			
July			
August			
September			
October			
November			
December			

Safety devices, such as interlocks and warning lights, are required to be checked monthly to ensure that they work correctly. However, if the unit is not being used during a given month, it is acceptable to write "Not in use" next to the appropriate month on the sheet, rather than perform the safety checks.
