Appendix B: Report of Exposure to Blood or OPIM

University of Illinois at Urbana-Champaign

An exposure incident is defined by the OSHA Bloodborne Pathogens Standard (29 CFR 1910.1030) as a specific eye, mouth, other mucous membrane, non-intact skin, or parenteral (skin-piercing wound) contact with blood or other potentially infectious materials that results from the performance of an employee's duties. These materials include any bodily fluid containing visible blood, semen, vaginal secretions, fluids surrounding internal organs, unfixed human organs or tissues, and cultures containing HIV, HBV, or HCV.

Any employee so exposed must be referred to a healthcare professional for post-exposure care and counseling. Use this form and the Campuswide Exposure Control Plan to ensure post-exposure follow-up and care. Please direct questions to DRS at 217-333-2755.

EXPOSED EMPLOYEE

1. Wash and treat the exposed area. Use soap for skin; use only water if eyes, nose or mouth.

2. Please provide the following information to the best of your knowledge.

Name:_____ Title:_____ UIN: _____

Home Address:_____ Home Phone: (____) _____

City:_____ State:_____ Zip:_____ Work Phone: (____) _____

Exposure Date and Time:____/____/____ : ____ ***AM/PM*** Exposure Location (Bldg/Rm): _____

Specify what you were exposed to (if possible): _____

The material came in contact with my:

[ ] right / left / both eye(s) [ ] nose [ ] mouth [ ] cut / scratched / punctured skin

If a sharp was involved what type was it, include brand/model: _____

Describe employee duties as they relate to this exposure incident: _____

Describe how the exposure occurred. _____

PPE worn at the time: **[ ] gloves [ ] protective clothing [ ] face protection [ ] protective eyewear [ ] no PPE**

CONFIDENTIALITY STATEMENT

The State of Illinois "AIDS Confidentiality Act" (410 ILCS 305) and 77 Ill. Adm. Code 697 (AIDS Confidentiality and Testing Code) provide for confidentiality of persons who are tested for HIV infection. The following provisions generally apply:

- No person may order an HIV test without first receiving informed consent (written or verbal) of the subject of the test or the subject's legally authorized representative*.
- Any person upon whom an HIV test is performed shall have the right to request anonymity and to provide informed consent (written or verbal) by using a coded system that does not link individual identity with the request or the result except when informed consent is not required by law.
- No person may disclose or be compelled to disclose the identity of any person upon whom a test is performed, or the results of such a test, in a manner that permits identification of the subject of the test.

*Specific exceptions (e.g. healthcare workers, firefighters, police officers, etc.) to each of these provisions exist and may apply in some cases involving occupational exposure to blood or OPIM. Please refer to the Exposure Control Plan for this information.
